

28th and 29th  
of September

# "III Internacional CERFA Cancer Symposium : Connecting Spanish researchers around the world."

2022 CERFA Cancer Virtual Symposium

Sociedad de Científicos  
Españoles en la República  
Federal de Alemania

FUNDACIÓN  
RAMÓN ARECES

## Wednesday 28th September

13:45-14:00

Welcome

14:00-14:40

Plenary Session

**Prof. Juan Fueyo, MD, FAAN, FAAAS**

*MD Anderson Cancer Center, Houston, Texas (US)*

"VIRUS, GENES and GLIOMAS: the long and winding road"

14:40-15:00

**Victoria Sanz Moreno, PhD**

*Barts Cancer Institute, Queen Mary University of London, London, UK*

"Understanding how invasive cancers crosstalk with their tumour microenvironment"

15:00-15:20

**Pilar Ayuda-Durán, PhD**

*Institute for Cancer Research, The Norwegian Radium Hospital, Oslo, Norway.*

"Mix&match in cancer treatment. Finding a killer combination"

15:20 - 15:45

Flash talks

15:45-16:45

Networking/Poster Session

16:45-17:05

**Leyre Zubiri MD, PhD**

*Massachusetts General Hospital, Boston, MA (US)*

"Toxicity secondary to immune checkpoint inhibitors. A new era"

17:05-17:25

**Judith Agudo, PhD**

*Dana-Farber Cancer Institute. Boston, MA*

"Quiescent stem cells and cancer cells evade T cell killing"

17:25-17:45

**Judit Jiménez Sainz, PhD**

*Yale University School of Medicine, New Haven, CT (USA)*

"Functional Studies of BRCA2 mutations to define Cancer Risk"

17:45-18:05

**Álvaro Curiel, PhD**

*The Herbert Irving Comprehensive Cancer Center,  
Columbia University. NY (US)*

“PADCAS: A friendly web page for exploratory  
analysis of pancreatic ductal adenocarcinoma  
datasets”

18:10-19:00

Networking Break

## **Thursday 29th September**

14:00-14:20

**Samuel Peña-Llopis, PhD**

*German Cancer Consortium (DKTK) at University  
Hospital Essen, Germany.*

“Translational Genomics of the Epigenetic  
Modifier BAPI”

14:20-14:40

**Prof. Rocío Sotillo, PhD**

*German Cancer Research Center (DKFZ), German  
Center for Lung Research (DZL), University of  
Heidelberg, Germany.*

“Molecular drivers and cell of origin of non-small  
cell lung cancer”

14:40-15:00

**Prof. Julio Saez-Rodriguez, PhD**

*Institute for Computational Biomedicine, BioQuant,  
Heidelberg, German*

“Artificial Intelligence and multi-omics data for  
personalized medicine”

15:00-15:20

**Maria Alieva Krasheninnikova, PhD**

*Prinses Maxima Center, Utrecht (NL)*

“Depicting the behavioral-transcriptomic  
landscape of engineered T cells to understand and  
improve cancer immunotherapy”

15:20-15:40

**Fernando Torres-Andón, PhD**

*Centre of Research in Molecular Medicine  
and Chronic Diseases (CIMUS), Santiago de  
Compostela, Spain*

“TLR-loaded-Nanomedicines to Reprogram  
Tumor-Associated Macrophages for the  
Treatment of Solid Tumors”

15:40-16:00

Flash talks

16:00-17:00

Networking-Coffee break /Poster Session

17:00-19:00

“Careers within and beyond academia”

Round table

Speakers:

• **Elisa Garcia Garcia, PhD**

*EU Project Officer. EURAXESS-Spain coordinator.  
Spanish Foundation for Science and Technology*

• **Elisa Espinet, PhD**

*Group leader at School of Medicine, University of  
Barcelona and Bellvitge Institute of Research in Biomedicine*

• **Ana Vivancos, PhD**

*Group Leader of VHIO's Cancer Genomics Group*

• **Raquel Sanz, PhD**

*Site Management Associate at ICON*

Closure/Awards/Acknowledgments
